

#017 HOW CAN I MANAGE MY STOCKS WHEN MY FORECASTS ARE UNRELIABLE?

Distributor

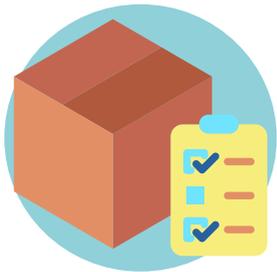

Industry

Stock

If your forecasts are too uncertain and you don't have the opportunity to improve them, «unplug» your conventional systems and go back to the manual.

For example, with regard to stock control by average consumption:

Set up reorder points in your MRP/DRP or use DDMRP concepts (using a spreadsheet program, for example);

Measure your energy and risk by controlling according to the importance of the reference (ABC classification).

20+ years of Management Consulting in all sectors, Extended Supply Chain enthusiast, Lateral thinker, Complex problems solver, Digital adopter ... but always down-to-earth pragmatist.

| About ASLOG

ASLOG brings together more than 400 companies from all sectors, with 2,000 professionals working together to promote and build tomorrow's Supply Chain. ASLOG is a neutral and independent association that addresses Supply Chain issues.

As early as 1972, visionary men sensed that this function would be decisive for all companies. For almost fifty years, professionals in the sector have made ASLOG the reference partner.

ASLOG is the privileged interlocutor of institutions and public authorities on all questions relating to the sector.

| #supplychain4good

The **#SupplyChain4Good** community was created at the initiative of Michelin and ASLOG, as part of the Movin'On ecosystem, in favor of a more sustainable mobility of goods.

#SupplyChain4Good's ambition is to federate the actors who work for Supply Chains that are simultaneously good for the planet, the people and the business performance. The members of this community are «shippers» (industrial and commercial companies), «operators» (transporters, logisticians, shipping companies, ports...), «support functions» (academics, consultants, information systems, regulators, NGOs...).

They cover all economic sectors and all regions of the world. Their work takes place throughout the year and culminates in the annual Movin'On Summit, the world summit on sustainable mobility.
