WHAT CAN I DO WHEN I NO LONGER HAVE A CLEAR VIEW OF MY CURRENT SUPPLY ORDERS AND THEIR DELIVERY DATES?

Distributor

Industry

Supply

Acknowledging immediately the non-quality of the information in the systems is already a step towards solving the problem.

UCollaboration with upstream and downstream players in the Supply Chain will allow a clear and shared exchange of information to give a coherent «top start» and allow the flow of information to run as smoothly as possible.

One of the aggravating factors of the Bullwhip effect is the poor consideration of outstanding orders and backlogs. If information systems are outdated, unstable or inconsistent, the creation of manual tools for mapping and sharing information can greatly assist in solving the problem.

20+ years of Management Consulting in all sectors, Extended Supply Chain enthusiast, Lateral thinker, Complex problems solver, Digital adopter ... but always down-to-earth pragmatist.

| About ASLOG

ASLOG brings together more than 400 companies from all sectors, with 2,000 professionals working together to promote and build tomorrow's Supply Chain. ASLOG is a neutral and independent association that addresses Supply Chain issues.

As early as 1972, visionary men sensed that this function would be decisive for all companies. For almost fifty years, professionals in the sector have made ASLOG the reference partner.

ASLOG is the privileged interlocutor of institutions and public authorities on all questions relating to the sector.

| #supplychain4good

The **#SupplyChain4Good** community was created at the initiative of Michelin and ASLOG, as part of the Movin'On ecosystem, in favor of a more sustainable mobility of goods.

#SupplyChain4Good's ambition is to federate the actors who work for Supply Chains that are simultaneously good for the planet, the people and the business performance. The members of this community are «shippers» (industrial and commercial companies), «operators» (transporters, logisticians, shipping companies, ports...), «support functions» (academics, consultants, information systems, regulators, NGOs...).

They cover all economic sectors and all regions of the world. Their work takes place throughout the year and culminates in the annual Movin'On Summit, the world summit on sustainable mobility.
